

This sunburst chart displays data across 72 categories, arranged in three concentric rings. The innermost ring (light blue) contains categories 1 through 20. The middle ring (orange) contains categories 21 through 50. The outermost ring (grey) contains categories 51 through 72. Each category is represented by a wedge, with the size of the wedge indicating the magnitude of the data for that category. The categories are labeled along the outer edge of each ring.
